

SKYWATCH®

SKYWATCH WINDOO

Equipped with a multi-directional propeller and its magnetic transmission for wind speed, with its sensors for temperature, humidity and pressure showing that directly on your smartphone, which is connected via the headphone jack. With sapphire bearings, anodized aluminum housing, stainless steel shaft and carbon protective case. Compatible with following smartphones and tablet: Samsung, iPhone, Nexus, HTC, Sony, LG.

General features:

- Instantaneous measures
- Graphical display of the measures
- History of measures
- Share the measures on Facebook, Twitter, windoo.ch
- Display of all measurements on a map
- Units of wind speed: km/h, m/s, fps, mph, knots
- Temperature unit: °C, °F
- Pressure unit: hPa, mbar, inHg
- Mode: immediate, minimum, maximum, average
- Available languages: English, French
- Dim. Ø mm. 20 x 52 h, weight. 38

Windoo 1

Anemo-thermometer for smartphone. It measures and indicates the following information:

- Windspeed
- Temperature – Wind chill factor

5656983 Anemometer/Thermometer

Windoo 2

Anemo-thermo-hygrometer for smartphone. It indicates the following information:

- Windspeed
- Temperature – Wind chill factor
- Humidity – Dew point

5656984 Anemo-thermo-hygrometer

Windoo 3

Weather station for smartphone. It measures and indicates the following information:

- Windspeed
- Temperature – Wind chill factor
- Humidity – Dew point
- Pressure

5656985 weather station

SKYWATCH®

High precision electronic anemometers.

Power supply with lithium battery. Backlight. Weight 50 g. Dim. mm. 93 x 41 x 17

Anemometers

Instant windspeed measurement with 'max' speed reached displayed. Wind speed in km/h, knots, mph, fps and m/s. Accuracy ± 3%, Backlight and Waterproof.

Xplorer 1

5656991 Anemometers

Anemometers

Instant windspeed measurement with: 'max' speed reached, current temperature and wind chill factor displayed. Wind speed in km/h, knots, mph, fps and m/s. Accuracy ± 3%. Air temperature from -50°C to +100°C, units °C and °F. Backlight and Waterproof.

Xplorer 2

5656992 Anemometers

Anemometers

Instant windspeed measurement with: 'max' speed reached, current temperature and wind chill factor displayed. Wind speed in km/h, knots, mph, fps and m/s. Accuracy ± 3%. Air temperature from -50°C to +100°C, units °C and °F. Electronic compass in degree. Backlight and Waterproof.

Xplorer 3

5656993 Anemometers

Anemometers

Instant windspeed measurement with: 'max' speed reached, current temperature and wind chill factor displayed. Wind speed in km/h, knots, mph, fps and m/s. Accuracy ± 3%. Air temperature from -50°C to +100°C, units °C and °F. Electronic compass in degree. Barometer with atmospheric pressure from 300 to 1100 hPa, relative pressure set up from 500 to 1050 hPa, weather forecast with pressure trend, altitude set up to 9000 m. with accuracy 1 m. Backlight and Waterproof.

Xplorer 4
